Vaccine to be administered: O **First Vaccine Shot** O **Second Vaccine Shot** O **Third Vaccine Shot**

A filled in circle next to the vaccine (above) and my signature (below) means that I have been provided a copy of the appropriate Vaccine Information Statement and have read, or have had explained to me, information about the disease and the vaccine(s). I have had a chance to ask questions that were answered to my satisfaction. I understand the risks and benefits as set forth in the statement received and I ask that the vaccine, as marked, be given.

Screening Questionnaire for 2020 COVID-19 Vaccination

The following questions will help us determine if there is any reason, we should not give you 2020 COVID-19 vaccine today. If you answer "yes" to any question, it does not necessarily mean you or your child should not be vaccinated. It just means additional questions must be asked. If a question is not clear, please ask your clinician.

Please check the appropriate boxes below.

Patient Age:_____

	Yes	No	Don't know
1. Are you feeling sick today?			
2. Have you ever received a dose of COVID-19 vaccine?			
• If yes, which vaccine product did you receive? ☐ Pfizer ☐ Moderna ☐ Janssen Another product: _____			
3. Have you ever had an allergic reaction to: (This would include a severe allergic reaction [e.g., anaphylaxis] that required treatment with epinephrine or EpiPen® or that caused you to go to the hospital. It would also include an allergic reaction that occurred within 4 hours that caused hives, swelling, or respiratory distress, including wheezing.)			
• A component of the COVID-19 vaccine, including either one of the following:			
• polyethylene glycol (PEG), which is found in some medications, such as laxatives and preparations for colonoscopy procedures			
• Polysorbate, which is found in some vaccines, film coated tablets, and intravenous steroids			
• A previous dose of COVID-19 vaccine			
4. Have you ever had an allergic reaction to another vaccine (other than COVID-19 vaccine) or an injectable medication? (This would include a severe allergic reaction [e.g., anaphylaxis] that required treatment with epinephrine or EpiPen® or that caused you to go to the hospital. It would also include an allergic reaction that occurred within 4 hours that caused hives, swelling, or respiratory distress, including wheezing.)			
5. Check all that apply to you			
☐ Am a female between 18 and 49 years old			
☐ Am a male between ages 12 and 29 years old			
☐ Have a history of myocarditis or pericarditis			
☐ Had a severe allergic reaction to something other than a vaccine or injectable therapy such as food, pet, venom, environmental or oral medication allergies			
☐ Had COVID-19 and was treated with monoclonal antibodies or convalescent serum			
☐ Diagnosed with Multisystem Inflammatory Syndrome (MIS-C or MIS-A) after a COVID-19 infection			
☐ Have a weakened immune system (i.e., HIV infection, cancer)			
☐ Take immunosuppressive drugs or therapies			
☐ Have a bleeding disorder
