RE: Vaccine clinics at School Sites

Dear Parents and Guardians of 5-11-Year-Old Students,

With the approval of the Pfizer-BioNTech Covid-19 vaccine for ages 5-11 we now have another opportunity to mitigate Covid-19 in our schools and community. The vaccine for Covid-19 is effective and can reduce the risk of getting and spreading the virus that causes Covid-19. The vaccine also helps children and adults from getting seriously ill even if they do get infected.

The Smyrna School District and Atlantic Apothecary Pharmacy are pleased to offer our students and their families the opportunity to have the Covid-19 vaccine in a convenient and familiar setting. On Wednesday, December 8th from 4:00 pm - 6:00 pm North Smyrna Elementary School will host a vaccine clinic and on Thursday, December 9th from 4:00 pm – 6:00 pm Clayton Intermediate School will host a vaccine clinic.

The vaccines are **FREE**. Students must be accompanied by a parent or guardian. The required consent form and general information about Pfizer-BioNTech Covid-19 vaccine are attached to the email and we request you please complete the consent form and bring it with you to the clinic. A second dose clinic will be held in January to complete the vaccine series.

In order to expedite the vaccination process we are asking that students with last names beginning with the letter A-L please arrive between 4:00 pm and 5:00 pm and students with last names beginning with the letter M-Z please arrive between 5:00 pm and 6:00 pm.

Although our target population is the younger student; please be aware we will also immunize older children and adults in the home. If someone needs a second vaccine or a booster, they will be available.

Thank you for taking this key step in keeping your child healthy and improving the health of our school and community.

Sincerely,

Smyrna School District Leadership Team
