For Immediate Release

November 6, 2024

In February 2024, the Smyrna School District reported alleged wrongdoing by staff at Smyrna Elementary School to the Division of Family Services and the Smyrna Police Department. We have worked diligently with our law enforcement partners throughout the investigation. The community and school system have been patiently waiting the conclusion of those extraordinary efforts. We appreciate the diligence and thoroughness of law enforcement in bringing closure to this troubling matter.

The relevant employees have not been in the presence of our students since the district was made aware of the alleged wrongdoing. Most individuals alleged to be involved no longer work for the District. With regard to the remaining employees, the District will honor employee privacy rights with regard to separation of employment, and we will make our reports to the Department of Education's Division of Licensure and Certification.

Student safety is of paramount importance to the Smyrna School District. We will continue to evaluate and improve all aspects of school safety. We will also continue to support our school community through this difficult time.
