District Update

Dear Smyrna School District Community,

We are excited to inform you about the implementation of a new Student Information System, Infinite Campus, which the Delaware Department of Education has introduced. The most recent post from their team is linked below. Our district is proud to be part of the pilot program for the 2024-25 school year.

Over the past few months, our dedicated team has been working closely with the Delaware Department of Education and the Infinite Campus team to ensure a smooth transition. As we approach the start of the school year, we ask for your patience and understanding. We are currently in the process of registering students, scheduling classes, and arranging transportation within this new system. Each day, we are making significant progress toward mastering this system and will soon share our success with you.

We understand that this time of year is crucial for obtaining important information, and we appreciate your patience as there may be some delays. Bus schedules and class schedules are being carefully formulated. We will publish all relevant information as soon as possible. For the most up-to-date information, please follow us on Facebook.

In the meantime, please continue to register your children, update addresses, and reach out to our schools with any needs or concerns. Your support during this transition is greatly appreciated. We look forward to an exciting and successful 2024-25 school year!

Thank you for your cooperation and understanding.

The original statement from the Delaware Department of Education is below.

The Smyrna School District does not discriminate in employment, educational programs, services or activities based on race, color, marital status, creed, religion, national origin, gender, age, genetic information, sexual orientation, gender identity, disability or any other protected category or status in accordance with state and federal laws. Inquiries should be directed to the District Superintendent.

Attention, Delaware families: Delaware is moving to a new Student Information System (SIS) that combines several current platforms to offer new features and services. This change will provide better functionality for schools and families while saving taxpayer dollars by eliminating duplicate systems.

Although the SIS operates behind the scenes, it's crucial for services your districts and charter schools provide, such as student registration, enrollment data, school transportation schedules, and medical information.

We are working closely with our piloting districts and charter schools as we transition. At the same time, they are preparing to welcome your children back for the upcoming school year. We appreciate your understanding if these schools (listed below) need extra time to complete student registration, publish bus schedules, or post homeroom rosters.

As with any major change, there may be unforeseen issues. We thank you in advance for your patience as we work through these challenges. We are grateful for the collaboration and support of the districts and charters in our first transition phase, which will ultimately benefit the entire state.
